Email: soumikkuila91@gmail.com

Github: <https://github.com/soumikkuila91-svg>

Mobile: +91 9907448628

SKILLS

Languages: C++, C, Python

Tools/Platforms: My SQL Server, GitHub, Visual Studio Code, LeetCode, GeeksforGeeks

Soft Skills: Problem Solving, Analytical Thinking, Continuous Learning, Time Management

PROJECTS

CivicPulse AI Powered Civic Tec | [GitHub](#)

June 2026 – Aug 2026

- Developed CivicPulse, a civic-tech platform for reporting potholes, garbage, streetlight faults, and other civic issues using photo evidence and GPS-based location pins.
- Built an issue management workflow for complaint categorization, department-wise routing, duplicate issue detection, before-and-after progress tracking, and citizen feedback.
- Created an interactive civic heatmap to visualize reported issues geographically and identify high-priority problem hotspots for faster municipal response.
- Tech Stack :** C++, OOPS, STL, File Handling

LPG Gas Leakage Detection System with Servo Knob Control (Novelty) | [LinkedIn](#)

Oct 2025 – Nov 2025

- Designed and developed a handmade Arduino UNO-based LPG Gas Leakage Detection System to detect gas leakage and provide an automated safety response using sensor-based monitoring.
- Implemented a novel servo-controlled LPG regulator knob mechanism that automatically turns off the gas supply upon detecting leakage, enhancing the system's safety and reducing the risk of fire or explosion.
- Conducted research and published a research paper on the proposed system, demonstrating practical skills in embedded systems, sensor integration, automation, hardware prototyping, and technical research.

TRAINING

Data Structures & Algorithms using C++ | Self-Learning / Practice

Jan 2026 – Jun 2026

- Practiced fundamental data structures and algorithms including arrays, linked list, stack, queue, and binary trees.
- Implemented tree traversals, searching, sorting, and other problem -solving techniques using C++.
- Solved coding problems on platforms such as GeeksforGeeks and Leetcode to strengthen algorithmic problem Solving skills.

Web Development | Self-Learning

Oct 2025 – Nov 2025

- Learning HTML, CSS, and JavaScript fundamentals.
- Practicing basic webpage structure, styling and interactive elements.
- Building responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.

CERTIFICATES

C Programming | [NeoColab](#)

May 2026

SQL | [CodeTantra](#)

May 2026

Cloud Computing | [Infosys](#)

Mar 2026

Python Programming | [CodeTantra](#)

Dec 2025

EDUCATION

Lovely Professional University

Bachelor of Technology

Computer Science and Engineering; **CGPA: 9.02**

Phagwara, Punjab

Aug 2025 – Present

Rohini C.R.D High School (H.S)

Intermediate; PCMB; **Percentage: 78.4**

Rohini, West Bengal

May 2023 - Mar 2025

Kulbani High School (H.S)

Matriculation; **Percentage: 85**

Kulbani, West Bengal

Jan 2022 - Mar 2023
